

COST BASIS ELECTION FORM

The cost basis of covered shares, generally shares acquired on or after January 1, 2012, is determined using the fund's default method, unless you elect another method. The Seafarer Funds default method is Average Cost. Complete this form to elect a different cost basis method for covered shares.

Do not use this form to elect a cost basis method for noncovered shares (generally shares acquired prior to January 1, 2012), or retirement accounts.

I elect different methods for the following funds in this account.

Fund Name and Share Class

- | | | | |
|---|---|---|--|
| <input type="checkbox"/> Average Cost (ACST) Default Cost Basis Method | <input type="checkbox"/> First In, First Out (FIFO) | <input type="checkbox"/> Last In, First Out (LIFO) | <input type="checkbox"/> Low Cost (LOFO) |
| <input type="checkbox"/> High Cost (HIFO) | <input type="checkbox"/> Loss Gain Utilization (LGUT) | <input type="checkbox"/> Specific Share Identification (SLID) | Secondary Method * _____ |

*If you elect Specific Share Identification, you may also elect a Secondary Method, other than Average Cost, that will apply when lots are not specified. If a Secondary Method is not elected, FIFO will apply as the default.

The method you elect will apply to future redemptions of covered shares. However, if you previously elected or were defaulted to Average Cost and there was a disposition of covered shares using this method, the method you elect will apply to shares acquired after the effective date of the change. If available, the cost basis of noncovered shares, generally shares acquired before January 1, 2012, is determined using the Average Cost method. Non-covered shares are redeemed prior to covered shares unless otherwise specified at the time of the redemption.

To determine which cost basis method is appropriate for your tax situation, please consult a qualified tax professional.
