**SEAFARER OVERSEAS GROWTH AND INCOME FUND  
PERFORMANCE REVIEW**

May 15, 2022

This report addresses the 2021-2022 fiscal year (May 1, 2021 to April 30, 2022) for the Seafarer Overseas Growth and Income Fund (the "Growth and Income Fund" or the "Fund").

During the fiscal year, the Fund returned -14.41%, while the Fund's benchmark indices, the Morningstar Emerging Markets Net Return USD Index and the MSCI Emerging Markets Total Return USD Index, returned -15.71% and -18.06%, respectively.<sup>1</sup> By way of broader comparison, the S&P 500 Index gained 0.21%.

The Fund began the fiscal year with a net asset value (NAV) of \$15.39 per share. During the ensuing twelve months, the Fund paid two distributions: \$0.213 per share in June 2021 and \$0.957 per share in December 2021. Those payments brought the cumulative distribution per share, as measured from the Fund's inception to the end of the fiscal year, to \$4.499. The Fund finished the fiscal year with a value of \$12.13 per share.<sup>2</sup>

From the Fund's inception (February 15, 2012) through the end of the fiscal year (April 30, 2022), the Fund generated an annualized rate of return of 5.65%.<sup>3</sup> Over the same period, the benchmark indices, the Morningstar Emerging Markets Net Return USD Index and MSCI Emerging Markets Total Return USD Index, rose at annualized rates of 3.34% and 2.94%, respectively.

\*\*\*

The fiscal year was characterized by sustained tumult and volatility, both for the Growth and Income Fund and the benchmark indices. The Fund and benchmarks all fell during the period, and Chinese shares were primarily responsible for the volatility in the emerging market asset class.

Chinese stock prices fell markedly beginning in July 2021 as the Xi administration implemented major policy interventions affecting a swathe of industries. For many years now, Seafarer's research indicated that large Chinese companies – especially those engaged in technology and internet businesses – suffered costly intrusions by the Chinese state. This finding held true even if such companies were ostensibly "privately owned" (i.e., companies that are publicly listed, but which are owned and controlled by private sector individuals and groups, rather than the "public" state). The government's tendency to intervene in business is nothing new in China, and Seafarer's team has observed it many times before. Yet under the Xi administration, a change seemed to take place: the state's intrusions into the private sector grew more frequent, broad, substantive and unpredictable.

Observing this change, Seafarer did not seek to ban or limit Chinese stocks within the Fund's portfolio – Seafarer does not make "top down" investment decisions, but rather evaluates the merits of each investment opportunity individually. The Fund continued to invest in China – including within the technology sector – but evermore selectively. As a result, the Fund's exposure to China stocks has been substantially lower than that of both benchmark indices for some time.

Then, markets swooned as Russia invaded Ukraine at the end of February 2022. The Fund managed to avoid some of the losses that ensued, as it has never been invested directly in Russian stocks.

Throughout the fiscal year, Chinese securities were the key contributor to emerging market volatility, a reflection of growing concerns about the overall health of China's economy. Even as the Fund avoided some of the most pronounced swings in price movements, it was not spared. Two of the top detractors to Fund performance for the fiscal year are based in mainland China: **China Literature**, a digital publisher and literary content platform, and **Jiangsu Hengrui**, one of China's largest and most innovative chemical pharmaceutical firms. Hengrui's shares apparently declined because one of its key anti-cancer therapies underwent a scheduled price renegotiation. We expect that Hengrui has sufficient cost controls to substantially blunt the impact of renegotiated prices.

April 30, 2022

Two other top detractors to the Fund's total return were South Korean holdings: **Hyundai Mobis**, a manufacturer of auto parts and systems, and **Samsung Electronics**, a semiconductor company.

The top contributor to the Fund's total return was **Pacific Basin**, a dry bulk shipping company based in Hong Kong. Pacific Basin performed well as shipping rates remained elevated and as the company continued to exhibit strong capital discipline and corporate governance. Other top contributors included **Emaar Properties** (one of the largest property developers in the United Arab Emirates), **Sanlam** (a South Africa-based insurance carrier), and **Itaú** (a Brazilian bank).

The outlook for the emerging markets remains uncertain, and much obviously hinges on a resolution to Russia's war in Ukraine. Having said that, it is still possible to find compelling and sustainable investment ideas across the asset class. Our investment team is staying the course, we have several research projects underway, and we continue with what we have been doing for over a decade now: pursuing lasting progress in the developing markets.

Thank you for entrusting us with your capital. We are honored to serve as your investment adviser in the emerging markets.

Fund performance is presented in U.S. dollar terms, with U.S. jurisdiction distributions reinvested on a gross (pre-tax) basis. For the Morningstar index, performance is calculated to reflect the reinvestment of dividends, capital gains, and other corporate actions net of foreign jurisdiction withholding taxes. For the MSCI index, performance is calculated to reflect the reinvestment of dividends, capital gains, and other corporate actions gross of foreign jurisdiction withholding taxes (i.e., such taxes are ignored). The performance data quoted represents past performance and does not guarantee future results. Future returns may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Prior to August 31, 2016, shares of the Fund redeemed or exchanged within 90 days of purchase were subject to a 2% redemption fee. Performance does not reflect this fee, which if deducted would reduce an individual's return. ## Performance of a \$10,000 Investment Since Inception

\* Inception Date: February 15, 2012.

The chart shown above represents historical performance of a hypothetical investment of \$10,000 in the Fund's Investor Class shares for the period from inception to April 30, 2022. All returns reflect reinvested dividends and/or distributions, but do not reflect the deduction of taxes that an investor would pay on distributions or redemptions.

The Fund also offers Institutional Class shares, performance of which is not reflected in the chart above. The performance of Institutional Class shares may be higher or lower than the performance of the Investor Class shares shown above based upon differences in fees paid by shareholders investing in the Investor Class shares and Institutional Class shares.

## Investment Objective

The Seafarer Overseas Growth and Income Fund seeks to provide long-term capital appreciation along with some current income. The Fund seeks to mitigate adverse volatility in returns as a secondary objective.

## Strategy

The Fund invests primarily in the securities of companies located in developing countries. The Fund invests in several asset classes including dividend-paying common stocks, preferred stocks, and fixed-income securities.

The Fund seeks to offer investors a relatively stable means of participating in developing countries' growth prospects, while attempting to mitigate adverse volatility in returns.

**SEAFARER OVERSEAS VALUE FUND  
PERFORMANCE REVIEW**

May 15, 2022

This report addresses the the 2021-2022 fiscal year (May 1, 2021 to April 30, 2022) for the Seafarer Overseas Value Fund (the "Value Fund" or the "Fund").

During the fiscal year, the Fund gained 1.08%, while the Fund's benchmark indices, the Morningstar Emerging Markets Net Return USD Index and the MSCI Emerging Markets Total Return USD Index, returned -15.71% and -18.06%, respectively.<sup>1</sup> By way of broader comparison, the S&P 500 Index gained 0.21%.

The Fund began the fiscal year with a net asset value (NAV) of \$13.18 per share. The Fund paid a distribution of \$0.463 per share in December 2021. That payment brought the cumulative distribution per share, as measured from the Fund's inception to the end of the fiscal year, to \$1.867. The Fund finished the fiscal year with a value of \$12.86 per share.<sup>2</sup>

From the Fund's inception (May 31, 2016) through the end of the fiscal year (April 30, 2022), the Fund generated an annualized rate of return of 7.18%.<sup>3</sup> Over the same period, the benchmark indices, the Morningstar Emerging Markets Net Return USD Index and MSCI Emerging Markets Total Return USD Index, rose at annualized rates of 8.09% and 7.83%, respectively.

\*\*\*

For the fiscal year, the Value Fund delivered a modest positive return while the emerging market benchmark indexes declined by double digits. While the Fund's performance relative to the benchmark indices is pleasing, I would draw attention to the more important fact that the Fund's NAV appreciated in absolute terms. The point is not to diminish the usefulness of benchmarks, but to remind investors that, in my opinion, what they need is the appreciation of their savings in real terms, after the impact of inflation, not to "keep up" with a market construct. Please refer to the Letter to Shareholders in the Seafarer Funds Semi-annual Report as of October 31, 2021 for an extended discussion on the topic of investor needs versus wants.<sup>4</sup>

In my estimation, there is no overriding "theme" or "explanatory variable" that accounts for the Fund's appreciation during this period. The Fund's top contributors represented a diversified set of investment return drivers, which relate less to sectors and countries and more to actual sources of stock-specific investment return.

The top contributor to the Fund's performance during the fiscal year was **PetroVietnam Fertilizer and Chemical**, a Vietnamese fertilizer manufacturer (*Management Change and Asset Productivity* sources of value; Seafarer's seven sources of value,<sup>5</sup> hereafter referenced using parenthesized italics, are defined in Figure 1). While the appreciation of urea prices during the year is a market factor that contributed to the stock's performance, in my opinion it served to amplify the return of an extraordinarily cheap stock that the Fund purchased for reasons unrelated to the price of urea: a cash-rich balance sheet, rising production volume from a new plant that manufactures higher value-added products, coupled with a high cash flow yield.<sup>6</sup>

## Figure 1. Sources of Value

Seafarer has identified seven distinct sources of value in emerging markets that may give rise to viable opportunities for long-term, value-oriented investments.

Opportunity Set	Source of Value	
Balance Sheet	Balance Sheet Liquidity	Cash or highly liquid assets undervalued by the market
	Breakup	Assets whose liquidation value exceeds their market capitalization
	Management Change	Assets that would become substantially more productive under a new owner / operator
	Deleveraging	Shift of cash flow accrual from debt holders to equity holders
	Asset Productivity	Cyclical downturn following a period of asset expansion
	Structural Shift	Shift to a lower growth regime, but still highly cash generative
Income Statement / Cash Flow	Segregated Market	Productive, cash-generative assets trading in an illiquid public market

Source: Seafarer

**Pacific Basin** (*Asset Productivity*), a dry bulk shipping company headquartered in Hong Kong, stood out as another top contributor. In the fiscal year, this stock continued its long-running positive contribution to the Fund's NAV. I am drawn to this stock because of its return of excess cash to shareholders (a testament to the company's strong capital discipline and corporate governance), company and industry fleet dynamics, and valuation.

Other notable positive contributors to Fund performance during this fiscal year include the following: **Petrovietnam Technical Services** (*Management Change and Asset Productivity*), a Vietnam-based oil services company; **First Pacific** (*Breakup Value*), a consumer and infrastructure conglomerate operating in Southeast Asia; and **Emaar Properties** (*Breakup Value*), a property developer and investment company operating in the United Arab Emirates.

On the negative side of the ledger, top detractors to Fund performance in the period correlated strongly with impacts from Covid-19 and the war in Ukraine. The top detractor, **Melco International** (*Breakup Value and Asset Productivity*), a Macau casino owner and operator, suffered from Covid-related travel restrictions to Macau. The Russia-Ukraine conflict most directly impacted **Global Ports** (*Asset Productivity and Deleveraging*), a Russian port owner and operator. While the attraction of this investment centered around the company's enviable asset base in terms of the strategic location of its ports, my risk assessment focused on how this corporation operated outside of "Putin's sphere of influence." In other words, unlike most of Russia's largest companies in the financial, resource, and industrial sectors, this company did not answer to Russia's president (as far as I could tell), and thus was and would continue to be free of sanction risk by the West. The war upended that risk assessment. Nevertheless, the Fund mitigated said risk through position sizing, with Global Ports comprising 1.1% of the Fund's net assets as of December 31, 2021. Effective March 3, 2022, trading was halted in Russian securities, including this holding. As of April 30, 2022 the Fund retained its position in the stock and it represented 0.0% of net assets.<sup>7</sup> The other Fund holding with material operations in Russia was **Mondi** (*Structural Shift*), a global (U.K.-based) paper and packaging company that derived 12% of revenue from Russia in 2021.<sup>8</sup>

Notwithstanding the fact that several top detractors correlated with market-related factors, overall I was satisfied that the Value Fund delivered its total return during the fiscal year in a manner that emphasized stock selection.

## Performance of a \$10,000 Investment Since Inception

\* Inception Date: May 31, 2016.

The chart shown above represents historical performance of a hypothetical investment of \$10,000 in the Fund's Investor Class shares for the period from inception to April 30, 2022. All returns reflect reinvested dividends and/or distributions, but do not reflect the deduction of taxes that an investor would pay on distributions or redemptions.

The Fund also offers Institutional Class shares, performance of which is not reflected in the chart above. The performance of Institutional Class shares may be higher or lower than the performance of the Investor Class shares shown above based upon differences in fees paid by shareholders investing in the Investor Class shares and Institutional Class shares.

## Investment Objective

The Seafarer Overseas Value Fund seeks to provide long-term capital appreciation.

## Strategy

The Fund invests primarily in the securities of companies located in developing countries. The Fund invests in several asset classes including common stocks, preferred stocks, and fixed-income securities.

The Fund's portfolio is comprised of securities identified through a bottom-up security selection process based on fundamental research. The Fund seeks to produce a minimum long-term rate of return by investing in securities priced at a discount to their intrinsic value.

## DISCLOSURE OF FUND EXPENSES

As a shareholder of a Fund you will incur two types of costs: (1) transaction costs; and (2) ongoing costs, including management fees and other Fund expenses. The following examples are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The examples are based on an investment of \$1,000 invested on November 1, 2021 and held until April 30, 2022.

**Actual Expenses.** For each Fund and share class, the first line of the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

**Hypothetical Example for Comparison Purposes.** For each Fund and share class, the second line of the following table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other mutual funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other mutual funds.

Please note the expenses shown in the following table are meant to highlight your ongoing costs only and do not reflect transaction costs. Therefore, for each Fund and share class, the second line of the following table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

## NOTES TO FINANCIAL STATEMENTS

### I. Organization

Financial Investors Trust (the "Trust"), a Delaware statutory trust, is an open-end management investment company registered under the Investment Company Act of 1940, as amended ("1940 Act"). The Trust consists of multiple separate portfolios or series. This annual report describes the Seafarer Overseas Growth and Income Fund and the Seafarer Overseas Value Fund (individually a "Fund" and collectively, the "Funds"). The Seafarer Overseas Growth and Income Fund seeks to provide long-term capital appreciation along with some current income; it also seeks to mitigate adverse volatility in returns as a secondary objective. The Seafarer Overseas Value Fund seeks to provide long-term capital appreciation. The Funds each offer Investor Class and Institutional Class shares.

### 2. Significant Accounting Policies

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. The Funds are considered an investment company for financial reporting purposes under U.S. GAAP and follow the accounting and reporting guidance applicable to investment companies in the Financial Accounting Standards Board Accounting Standards Codification Topic 946. The following is a summary of significant accounting policies consistently followed by the Funds in preparation of their financial statements.

#### Investment Valuation

Each Fund generally values its securities based on market prices determined at the close of regular trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern Time, on each day the NYSE is open for trading.

For equity securities and exchange traded funds, the market price is usually the closing sale or official closing price on that exchange. In the case of equity securities not traded on an exchange, or if such closing prices are not otherwise available, the securities are valued at the mean of the most recent bid and ask prices on such day. Redeemable securities issued by open-end registered investment companies are valued at the investment company's applicable net asset value, with the exception of exchange-traded open-end investment companies, which are priced as equity securities.

Equity securities that are primarily traded on foreign securities exchanges are valued at the closing values of such securities on their respective foreign exchanges, except when an event occurs subsequent to the close of the foreign exchange but before the close of the NYSE, such that the securities' value would likely change. In such an event, the fair values of those securities are determined in good faith through consideration of other factors in accordance with procedures established by and under the general supervision of the Board of Trustees of the Trust (the "Board" or the "Trustees"). Each Fund uses a fair valuation model provided by an independent pricing service, which is intended to reflect fair value when a security's value or a meaningful portion of the Fund's portfolio is believed to have been materially affected by a valuation event that has occurred between the close of the exchange or market on which the security is traded and the close of the regular trading day on the NYSE.

The market price for debt obligations is generally the price supplied by an independent third-party pricing service approved by the Board, which may use a matrix, formula or other objective method that takes into consideration quotations from dealers, market transactions in comparable investments, market indices and yield curves. If vendors are unable to supply a price, or if the price supplied is deemed to be unreliable, the market price may be determined using quotations received from one or more broker-dealers that make a market in the security. Corporate bonds and convertible bonds are valued using market models that consider trade data, quotations from dealers and active market

makers, relevant yield curve and spread data, creditworthiness, trade data or market information on comparable securities, and other relevant security specific information. Publicly traded foreign government debt securities and foreign corporate bonds are typically traded internationally in the over-the-counter market and are valued at the mean between the bid and asked prices as of the close of business of that market.

Forward currency exchange contracts have a market value determined by the prevailing foreign currency exchange daily rates and current foreign currency exchange forward rates. The foreign currency exchange forward rates are calculated using an automated system that estimates rates on the basis of the current day foreign currency exchange rates and forward foreign currency exchange rates supplied by a pricing service.

When such prices or quotations are not available, or when the Trust's Valuation Committee believes that they are unreliable, securities may be priced using fair value procedures approved by the Board.

Certain foreign countries impose a tax on capital gains which is accrued by each Fund based on unrealized appreciation, if any, on affected securities. The tax is paid when the gain is realized.

### Fair Value Measurements

Each Fund discloses the classification of its fair value measurements following a three-tier hierarchy based on the inputs used to measure fair value. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Such inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability, which are developed based on the information available and the reporting entity's best efforts to interpret such information.

Various inputs are used in determining the value of the Funds' investments as of the end of the reporting period. When inputs used fall into different levels of the fair value hierarchy, the level in the hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. The designated input levels are not necessarily an indication of the risk or liquidity associated with these investments. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

- Level 1 – Unadjusted quoted prices in active markets for identical investments, unrestricted assets or liabilities that the Funds have the ability to access at the measurement date;
- Level 2 – Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 – Significant unobservable prices or inputs (including the Funds' own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

April 30, 2022

The following is a summary of the inputs used to value each Fund as of April 30, 2022:

## Investment Transactions and Investment Income

Investment transactions are accounted for on the date the investments are purchased or sold (trade date). Realized gains and losses from investment transactions are reported on an identified cost basis. Interest income, which includes accretion of discounts and amortization of premiums, is accrued and recorded as earned. Dividend income is recognized on the ex-dividend date or for certain foreign securities, as soon as information is available to the Funds. All of the realized and unrealized gains and losses and net investment income are allocated daily to each share class in proportion to its average daily net assets.

### Cash Management Transactions

Each of the Funds subscribes to the Brown Brothers Harriman & Co. ("BBH") Cash Management Service ("CMS"), whereby cash balances are automatically swept into overnight offshore demand deposits with either the BBH Grand Cayman branch or a branch of a pre-approved commercial bank. This fully automated program allows the Funds to earn interest on cash balances. Excess cash with deposit institutions domiciled outside of the U.S. are subject to sovereign actions in the jurisdiction of the deposit institution including, but not limited to, freeze, seizure or diminution. Cash balances in the BBH CMS are included on the Statements of Assets and Liabilities under Cash and Foreign currency, at value. As of April 30, 2022, the Funds had the following cash balances participating in the BBH CMS:

Fund		
Seafarer Overseas Growth and Income Fund	\$	20,791,373
Seafarer Overseas Value Fund		3,904,814

As of April 30, 2022, the Funds had the following foreign cash balances participating in the BBH CMS (cost and value of foreign cash balances are equal):

Fund		
Seafarer Overseas Growth and Income Fund	\$	—
Seafarer Overseas Value Fund		—

### Foreign Securities

The Funds may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate foreign currency, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. issuers.

### Foreign Currency Translation

The books and records of the Funds are maintained in U.S. dollars. Investment valuations and other assets and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Prevailing foreign exchange rates may generally be obtained at the close of the NYSE (normally, 4:00 p.m. Eastern Time). The portion of realized and unrealized gains or losses on investments due to fluctuations in foreign currency exchange rates is not separately disclosed and is included in realized and unrealized gains or losses on investments, when applicable.

### Foreign Currency Spot Contracts

Each Fund may enter into foreign currency spot contracts to facilitate transactions in foreign securities or to convert foreign currency receipts into U.S. dollars. A foreign currency spot contract is an agreement between two parties to buy and sell currencies at the current market rate, for settlement generally within two business days. The U.S. dollar value of a contract is determined using current currency exchange rates supplied by a pricing service. The contract is marked-to-market daily for settlements beyond one day and any change in market value is recorded as an unrealized gain or loss. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value on the open and close date. Losses may arise from changes in the value of the foreign currency, or if the counterparties do not perform under the contract's terms. The maximum potential loss from such contracts is the aggregate face value in U.S. dollars at the time the contract was opened.

### Trust Expenses

Some expenses of the Trust can be directly attributed to the Funds. Expenses that cannot be directly attributed to the Funds are apportioned among all funds in the Trust based on the average daily net assets of each fund.

## Fund and Class Expenses

Expenses that are specific to a Fund or class of shares of a Fund, including shareholder servicing fees, are charged directly to that Fund or share class. Expenses that are common to all Funds are generally allocated among the Funds in proportion to their average daily net assets.

## Income Taxes

Each Fund complies with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and intends to distribute substantially all of its net taxable income and net capital gains, if any, each year so that it will not be subject to excise tax on undistributed income and gains. The Funds are not subject to income taxes to the extent such distributions are made.

As of and during the year ended April 30, 2022, the Funds did not have a liability for any unrecognized tax benefits. The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing due date of the tax return for federal purposes and four years for most state returns. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

## Distributions to Shareholders

In general, the Seafarer Overseas Growth and Income Fund's policy is to distribute to its shareholders substantially all net investment income paid out via semi-annual dividends, in June and December. The Seafarer Overseas Value Fund's policy is to distribute to its shareholders substantially all net investment income via one annual dividend in December. It is also each Fund's policy to distribute annually all net realized short-term and long-term capital gains, if any, after offsetting any capital loss carryovers. Income dividend distributions are derived from dividends and other income each Fund receives from its investments, including short-term capital gains. Long-term capital gain distributions are derived from gains realized when a Fund sells a security it has owned for more than one year. Each Fund may make additional distributions at other times if the Fund believes doing so may be necessary for the Fund to share tax obligations more ratably and more equitably across shareholders over time.

## Epidemic and Pandemic Risk

Certain countries have been susceptible to epidemics, most recently Covid-19, which has been designated as a pandemic by world health authorities. The outbreak of such epidemics, together with any resulting restrictions on travel or quarantines imposed, could have a negative impact on the economy and business activity globally (including in the countries in which the Funds invest), and thereby could adversely affect the performance of the Funds' investments. Furthermore, the rapid development of epidemics could preclude prediction as to their ultimate adverse impact on economic and market conditions, and, as a result, presents material uncertainty and risk with respect to the performance of the Funds' investments.

## 3. Tax Basis Information

### Reclassifications

As of April 30, 2022, permanent differences in book and tax accounting were reclassified. These differences had no effect on net assets and were primarily attributed to equalization. The reclassifications were as follows:

Fund	Paid-in Capital	Distributable Earnings
Seafarer Overseas Growth and Income Fund	\$ 2,348,001	\$ (2,348,001)
Seafarer Overseas Value Fund	10,048	(10,048)

**Capital Losses**

The Seafarer Overseas Value Fund used capital loss carryovers during the fiscal year ended April 30, 2022 in the amount of \$515,853.

**Tax Basis of Distributions to Shareholders**

The character of distributions made during the fiscal year from net investment income or net realized gains may differ from the ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or realized gain is recorded by a Fund.

April 30, 2022

The tax character of distributions paid by the Funds for the fiscal year ended April 30, 2022 was as follows:

<b>Fund</b>	<b>Ordinary Income</b>	<b>Long-Term Capital Gain</b>
Seafarer Overseas Growth and Income Fund	\$ 39,950,471	\$ 122,501,686
Seafarer Overseas Value Fund	1,145,464	102,432

The tax character of distributions paid by the Funds for the fiscal year ended April 30, 2021 was as follows:

<b>Fund</b>	<b>Ordinary Income</b>	<b>Long-Term Capital Gain</b>
Seafarer Overseas Growth and Income Fund	\$ 21,456,087	\$ 18,037,291
Seafarer Overseas Value Fund	428,096	–

#### 4. Securities Transactions

The cost of purchases and proceeds from sales of securities excluding short-term securities during the year ended April 30, 2022 were as follows:

<b>Fund</b>	<b>Purchases of Securities</b>	<b>Proceeds from Sales of Securities</b>
Seafarer Overseas Growth and Income Fund	\$ 541,817,668	\$ 322,353,929
Seafarer Overseas Value Fund	10,186,278	4,987,065

#### 5. Shares of Beneficial Interest

The capitalization of the Trust consists of an unlimited number of shares of beneficial interest with no par value per share. Holders of shares of the Funds of the Trust have one vote for each share held and a proportionate fraction of a vote for each fractional share. All shares issued and outstanding are fully paid and are transferable and redeemable at the option of the shareholder. Purchasers of the shares do not have any obligation to make payments to the Trust or its creditors solely by reason of the purchasers' ownership of the shares. Shares have no pre-emptive rights.

#### 6. Management and Related Party Transactions

The Adviser, subject to the authority of the Board, is responsible for the overall management and administration of the Funds' business affairs. The Adviser manages the investments of the Funds in accordance with the Funds' investment objectives, policies, limitations and investment guidelines established jointly by the Adviser and the Trustees. Pursuant to the investment advisory agreement, the Funds, in the aggregate, pay the Adviser an annual management fee of 0.75% of the aggregate average daily net assets of the Funds up to \$1.5 billion and 0.70% of the aggregate average daily net assets of the Funds over \$1.5 billion. Each Fund pays the Adviser a monthly fee at the annual rate using the applicable management fee calculated based on the Fund's pro rata share of the Funds' combined average daily net assets.

Effective September 1, 2015, the Adviser contractually, through successive one-year agreements, agreed to waive and/or reimburse fees or expenses in order to limit Total Annual Fund Operating Expenses After Fee Waiver / Expense Reimbursements (excluding brokerage expenses, interest expenses, taxes and extraordinary expenses) to 1.15% and 1.05% of the Funds' average daily net assets for the Investor and Institutional share classes, respectively. The current agreement (the "Expense Agreement") is in effect through August 31, 2022. The Adviser will be permitted to recover, on a class-by-class basis, expenses it has borne through the Expense Agreement to the extent that the Funds' expenses in later periods fall below the expense cap in effect at the time of waiver or reimbursement. The Funds will not be obligated to pay any such deferred fees and expenses more than three years after

April 30, 2022

the date of the waiver. This agreement may not be terminated or modified prior to August 31, 2022, except with the approval of the Funds' Board. During the year ended April 30, 2022, the Adviser agreed that it will only seek to recoup waived management fees and will not recoup any reimbursed expenses. As of April 30, 2022, the Adviser had recouped all available waived management fees from the Seafarer Overseas Growth and Income Fund.

For the year ended April 30, 2022, the fee waivers and/or reimbursements were as follows for the Seafarer Overseas Value Fund:

Fund	Fees Waived/ Reimbursed By Adviser	Recoupment of Past Waived Fees By Adviser
<b>Seafarer Overseas Value Fund</b>		
Investor Class	\$ 1,439	\$ -
Institutional Class	118,111	-

As of April 30, 2022 the balances of recoupable expenses for each class were as follows for the Funds:

Fund	Expires 2023	Expires 2024	Expires 2025	Total
<b>Seafarer Overseas Growth and Income Fund</b>				
Investor Class	\$ -	\$ -	\$ -	-
Institutional Class	-	-	-	-
<b>Seafarer Overseas Value Fund</b>				
Investor Class	\$ 912	\$ 1,259	\$ 1,439	\$ 3,610
Institutional Class	129,046	134,851	118,111	382,008

### Fund Administrator

ALPS Fund Services, Inc. ("ALPS" and the "Administrator") provides administrative, fund accounting and other services to the Funds under the Administration, Bookkeeping and Pricing Services Agreement with the Trust.

The Funds' administrative fee is accrued on a daily basis and paid monthly. The Administrator is also reimbursed by the Funds for certain out-of-pocket expenses. Administration fees paid by the Funds for the year ended April 30, 2022 are disclosed in the Statements of Operations.

### Transfer Agent

ALPS serves as transfer, dividend paying and shareholder servicing agent for the Funds ("Transfer Agent"). ALPS is paid an annual base fee per Fund and a fee based on the number of shareholder accounts. The Transfer Agent is also reimbursed by the Funds for certain out-of-pocket expenses. Transfer agent fees paid by the Funds for the year ended April 30, 2022 are disclosed in the Statements of Operations.

### Compliance Services

ALPS provides compliance services to the Funds under the Chief Compliance Officer Services Agreement with the Trust. ALPS provides services that assist the Trust's chief compliance officer in monitoring and testing the policies and procedures of the Trust in accordance with the requirements of Rule 38a-1 under the 1940 Act. ALPS is paid an annual base fee and is reimbursed for certain out-of-pocket expenses. Compliance service fees paid by the Funds for the year ended April 30, 2022 are disclosed in the Statements of Operations.

### Principal Financial Officer

ALPS provides principal financial officer services to the Funds under the Principal Financial Officer Services Agreement with the Trust. Under this Agreement, ALPS is paid an annual base fee and is reimbursed for certain out-of-pocket expenses. Principal financial officer fees paid by the Funds for the year ended April 30, 2022 are disclosed in the Statements of Operations.

### Distributor

ALPS Distributors, Inc. ("ADI" or the "Distributor") (an affiliate of ALPS) acts as the distributor of the Funds' shares pursuant to the Distribution Agreement with the Trust. Under a side letter agreement, the Adviser pays ADI an annual base fee per Fund for the distribution services. The Adviser also reimburses ADI for certain out-of-pocket expenses. Shares are sold on a continuous basis by ADI as agent for the Funds, and ADI has agreed to use its best efforts to solicit orders for the sale of the Funds' shares, although it is not obliged to sell any particular amount of shares. ADI is registered as a broker-dealer with the U.S. Securities and Exchange Commission.

### Shareholder Service Plan for Investor Class and Institutional Class Shares

Each Fund has adopted a Shareholder Services Plan (a "Services Plan") for each of its share classes. Under the Services Plan, each Fund is authorized to enter into shareholder service agreements with investment advisers, financial institutions and other service providers ("Participating Organizations") to maintain and provide certain administrative and servicing functions in relation to the accounts of shareholders. Shareholder service arrangements typically include processing orders for shares, generating account and confirmation statements, sub-accounting, account maintenance, tax reporting, and disbursing cash dividends as well as other investment or administrative services required for a particular Participating Organizations' products, programs, platform and accounts. The Services Plan will cause each Fund to pay an aggregate fee, not to exceed on an annual basis 0.15% and 0.05% of the average daily net asset value of the Investor and Institutional share classes, respectively. Such payments will be made on assets attributable to or held in the name of a Participating Organization, on behalf of its clients as compensation for providing service activities pursuant to an agreement with the Participating Organization. Any amount of such payment not paid to a Participating Organization for such service activities shall be reimbursed to the Fund as soon as practicable. Shareholder Services Plan fees paid by the Funds for the year ended April 30, 2022 are disclosed in the Statements of Operations.

### Trustees

The fees and expenses of the Trustees of the Board are presented in the Statements of Operations.

## 7. Indemnifications

Under the Trust's organizational documents, its officers and Trustees are indemnified against certain liability arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that may contain general indemnification clauses, which may permit indemnification to the extent permissible under the applicable law. The Trust's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Trust that have not yet occurred.

To the shareholders and the Board of Trustees of Financial Investors Trust

### Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statements of assets and liabilities of Seafarer Overseas Growth and Income Fund and Seafarer Overseas Value Fund, two of the funds constituting the Financial Investors Trust (the "Funds"), including the portfolios of investments, as of April 30, 2022, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended; and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Funds as of April 30, 2022, and the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinion

These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of April 30, 2022, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

## SEAFARER FUNDS APPROVAL OF FUND ADVISORY AGREEMENT

On December 14, 2021, the Trustees met via Zoom video conference to discuss, among other things, the renewal of the Investment Advisory Agreement between Seafarer Capital Partners, LLC ("Seafarer") and the Trust, with respect to the Seafarer Overseas Growth and Income Fund and the Seafarer Overseas Value Fund (together, the "Seafarer Funds"), dated January 30, 2012, as amended (the "Seafarer Investment Advisory Agreement"), in accordance with Section 15(c) of the 1940 Act. In renewing and approving the Seafarer Investment Advisory Agreement, the Trustees, including the Independent Trustees, considered the following factors with respect to the Seafarer Funds:

### **Investment Advisory Fee Rate:**

The Trustees reviewed and considered the contractual annual advisory fees paid by the Trust, on behalf of the Seafarer Funds, to Seafarer, of 0.75% of the aggregate average daily net assets of the Funds up to \$1.5 billion and 0.70% of the aggregate average daily net assets of the Funds over \$1.5 billion, in light of the extent and quality of the advisory services provided by Seafarer to each of the Seafarer Funds.

The Board received and considered information including a comparison of the contractual advisory fee rate of the Investor Class and Institutional Class of each Seafarer Fund with those of funds in the peer group of funds provided by an independent provider of investment company data (the "Data Provider"). The Trustees noted that the contractual advisory fee rate of each Class of the Seafarer Funds was lower than the Data Provider peer group median.

### **Total Net Expense Ratios:**

The Trustees further reviewed and considered that the total net expense ratio of each Class of both Seafarer Funds was lower than the Data Provider peer group median. Rule 12b-1 Fees in peer group funds were excluded for the purpose of the comparison.

### **Nature, Extent, and Quality of the Services under the Investment Advisory Agreement:**

The Trustees received and considered information regarding the nature, extent, and quality of services provided to the Seafarer Funds under the Seafarer Investment Advisory Agreement. The Trustees reviewed certain background materials supplied by Seafarer in its presentation, including its Form ADV. The Trustees reviewed and considered Seafarer's investment advisory personnel, its history as an asset manager, and its performance and the amount of assets currently under management by Seafarer. The Trustees also reviewed the research and decision-making processes utilized by Seafarer, including the methods adopted to seek to achieve compliance with the investment objectives, policies, and restrictions of the Seafarer Funds.

The Trustees considered the background and experience of Seafarer's management in connection with the Seafarer Funds, including reviewing the qualifications, backgrounds, and responsibilities of the management team primarily responsible for the day-to-day portfolio management of each Seafarer Fund and the extent of the resources devoted to research and analysis of actual and potential investments.

The Trustees also reviewed, among other things, Seafarer's insider trading policies and procedures and its Code of Ethics.

### **Performance:**

The Trustees reviewed performance information for each Class of the Seafarer Funds for the 3-month, 1-year, 3-year, 5-year, and since inception periods ended September 30, 2021. That review included a comparison of each Seafarer Fund's performance to the performance of a group of comparable funds selected by the Data Provider. The Trustees noted that both Classes of the Seafarer Overseas Growth and Income Fund outperformed the Data Provider peer group median for each of the 3-month, 3-year and since inception periods and underperformed the Data Provider peer group median for the 5-year

period. The Trustees noted that the Institutional Class of the Seafarer Overseas Growth and Income Fund performed equal to the Data Provider peer group median for the 1-year period and that the Investor Class of the Seafarer Overseas Growth and Income Class outperformed the Data Provider peer group median for the 1-year period.

The Trustees noted that both Classes of the Seafarer Overseas Value Fund outperformed the Data Provider peer group median for the 3-month period and underperformed the Data Provider peer group median for the since inception period. The Trustees noted that the Institutional Class of the Seafarer Overseas Value Fund outperformed the Data Provider peer group median for the 3-year period, performed equal to the Data Provider peer group median for the 5-year period, and underperformed the Data Provider peer group median for the 1-year period. The Trustees noted that the Investor Class of the Seafarer Overseas Value Fund outperformed the Data Provider peer group median for the 1-year period, performed equal to the Data Provider peer group median for the 3-year period, and underperformed the Data Provider peer group median for the 5-year period. The Trustees also considered Seafarer's discussion of its reputation generally and its investment techniques, risk management controls, and decision-making processes.

### **Comparable Accounts:**

The Trustees noted that Seafarer's only clients were the Seafarer Funds.

### **Profitability:**

The Trustees received and considered a profitability analysis prepared by Seafarer based on the fees payable under the Seafarer Investment Advisory Agreement.

### **Economies of Scale:**

The Trustees considered whether economies of scale in the provision of services to the Seafarer Funds will be passed along to the shareholders under the proposed agreement.

### **Other Benefits to the Adviser:**

The Trustees reviewed and considered any other incidental benefits derived or to be derived by Seafarer from its relationship with the Seafarer Funds, including whether soft dollar arrangements were used.

The Trustees, including all of the Independent Trustees, concluded that:

- the contractual advisory fee rate of each Class of both Seafarer Funds was lower than the Data Provider peer group median;
- the total net expense ratio of each Class of both Seafarer Funds was lower than the Data Provider peer group median;
- the nature, extent, and quality of services rendered by Seafarer under the Seafarer Investment Advisory Agreement with respect to each Seafarer Fund were adequate;
- for the period ended September 30, 2021, in the independent analysis prepared by the Data Provider, each Class of the Seafarer Overseas Growth and Income Fund outperformed the Data Provider peer group median for each of the 3-month, 3-year and since inception periods and underperformed the Data Provider peer group median for the 5-year period; the Institutional Class of the Seafarer Overseas Growth and Income Fund performed equal to the Data Provider peer group median for the 1-year period and the Investor Class of the Seafarer Overseas Growth and Income Class outperformed the Data Provider peer group median for the 1-year period; each Class of the Seafarer Overseas Value Fund outperformed the Data Provider peer group median for the 3-month period and underperformed the Data Provider peer group median for the since inception period; the Institutional Class of the Seafarer Overseas Value Fund outperformed the Data Provider peer group median for the 3-year period, performed equal to the Data Provider peer group median for the 5-year period, and underperformed the Data Provider peer group median for the 1-year period; and the Investor Class of the Seafarer Overseas Value Fund outperformed the Data Provider peer group

median for the 1-year period, performed equal to the Data Provider peer group median for the 3-year period, and underperformed the Data Provider peer group median for the 5-year period;

- Seafarer had no other accounts with comparable investment objectives and strategies to the Seafarer Funds;
- the profit, if any, realized by Seafarer in connection with the operation of any of the Seafarer Funds is not unreasonable; and
- there were no material economies of scale or other incidental benefits accruing to Seafarer in connection with its relationship with any of the Seafarer Funds.

Based on the Trustees' deliberations and their evaluation of the information described above, the Trustees, including all of the Independent Trustees, concluded that Seafarer's compensation for investment advisory services is consistent with the best interests of each of the Seafarer Funds and their shareholders.

The Financial Investors Trust (the "Trust") has established a liquidity risk management program (the "Program") to govern the Trust's approach to managing liquidity risk for each fund in the Trust (each a "Fund"). The Program is overseen by the Liquidity Committee (the "Committee"), a committee comprised of representatives of the Trust's investment advisers, sub-advisers, and Officers of the Trust. The Trust's Board of Trustees (the "Board") has approved the designation of the Committee to oversee the Program.

The Program's principal objectives include supporting each Fund's compliance with limits on investments in illiquid assets and mitigating the risk that a Fund will be unable to meet its redemption obligations in a timely manner. The Program also includes a number of elements that support the management and assessment of liquidity risk, including a periodic assessment of factors that influence a Fund's liquidity and the periodic classification and re-classification of the Fund's investments into groupings that reflect the Committee's assessment of their relative liquidity under current market conditions.

At a meeting of the Board held on March 8, 2022, the Trustees received a report from the Committee regarding the design and operational effectiveness of the Program during 2021. The Committee determined, and reported to the Board, that the Program is reasonably designed to assess and manage each Fund's liquidity risk and has operated adequately and effectively to manage each Fund's liquidity risk since implementation.

The Committee reported that during the period covered by the report, there were no liquidity events that impacted the Funds or their ability to timely meet redemptions without dilution to existing shareholders. Among other things, the Board noted that the Funds are not required to have a highly liquid investment minimum based on their liquidity classifications. The Board further noted that no material changes have been made to the Program since its implementation.

The business and affairs of each Fund are managed under the direction of its Board. The Board approves all significant agreements between a Fund and the persons or companies that furnish services to the Fund, including agreements with its distributor, Adviser, Sub-Adviser, administrator, custodian and transfer agent. The day-to-day operations of each Fund are delegated to the Fund's Adviser, Sub-Adviser and administrator.

The name, address, age and principal occupations for the past five years of the Trustees and officers of the Trust are listed below, along with the number of portfolios in the Fund complex overseen by and the other directorships held by each Trustee.

Additional information regarding the Funds' trustees is included in the Statement of Additional Information, which can be obtained without charge at [seafarerfunds.com](http://seafarerfunds.com) or by calling 855-732-9220.
