**Important Risks:** An investment in the Funds involves risk, including possible loss of principal. International investing involves additional risks, including social and political instability, market and currency volatility, market illiquidity, and reduced regulation. Emerging markets are often more volatile than developed markets, and investing in emerging markets involves greater risks. Fixed income investments are subject to additional risks, including but not limited to interest rate, credit, and inflation risks. Value investments are subject to the risk that their intrinsic value may not be recognized by the broad market. An investment in the Funds should be considered a long-term investment.

The performance data quoted represents past performance and does not guarantee future results. Future returns may be lower or higher. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost.
